# What is the roll of the Family Support Specialist?

My job is to reduce as many barriers to education as possible for scholars and their families. I am here to connect everyone to resources, answer questions, and make sure everyone has access to all the necessary services and programs that help students and their families thrive.

I had the pleasure of working as the Wraparound Site Coordinator at Case Elementary last year, so I am well versed in the services and programs that are available in the city. I also have a wondererful support system of other Family Support Specialists who are each placed in other schools throughout the district.
